Summary

Passionate self-taught frontend web developer with 2+ years of hands-on project experience designing and building clean, responsive, production-ready websites. Proficient in React, Redux, and Tailwind CSS, with a proven ability to deliver high-quality projects on deadline—both independently and as part of a collaborative team.

Projects

Movie App (01/2025)

Tech Stack: HTML, CSS, Tailwind, JavaScript, React, Redux, Framer motion

- Designed and developed a responsive Movie & TV Show app leveraging the TMDB API, achieving a 40% boost in user engagement per feedback from 30+ beta testers.
- Implemented robust search, integrated trailer playback, and dynamic content suggestions, significantly increasing average session duration.
- Enhanced user experience with Redux state management and seamless dark mode, delivering a 50% performance improvement as validated by 20+ users.
