Summary

Passionate frontend web developer with 2+ years of experience in designing and developing clean, responsive, and production-ready websites. Proficient in React, Redux, and Tailwind CSS. Demonstrated success in delivering high-quality projects within deadlines, both independently and as part of a collaborative team.

Projects

Notes App (08/2024)

Tech Stack: HTML, CSS, Tailwind, JavaScript, React, Redux, Framer motion

- Architected and developed a fully responsive, feature-rich Notes App, integrating functionalities such as task lists, sticky notes, a stopwatch, and dark mode.
- Leveraged Redux for state management to facilitate seamless CRUD (Create, Read, Update, Delete) operations and ensure local storage persistency.
- Developed a user authentication system with secure login functionality to enhance accessibility and privacy.

Netflix Clone (09/2024)

Tech Stack: HTML, CSS, Tailwind, JavaScript, React

- Engineered a Netflix clone, incorporating responsive web design principles to ensure compatibility across devices.
- Developed dynamic sections for showing movies/shows.
- Implemented Frequently Asked Questions (FAQ) section to provide user-friendly information.
